MAKING THE MOST OF MYCHART:
SIGNING UP

MyChart is a secure internet website that lets you see and manage your medical records and health care.

Overview

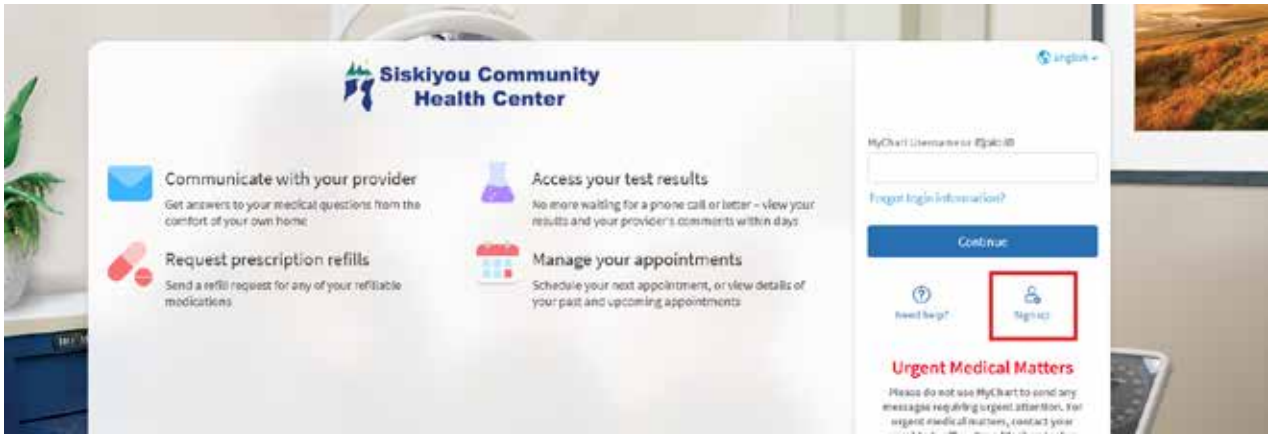

With MyChart, you can:

- See your test results and upcoming appointments
- Connect with your doctor, and make or change appointments
- See and pay your medical bills
- Refill your medication
- Refill your medic

This guide shows you how to sign up for MyChart and use its many features.

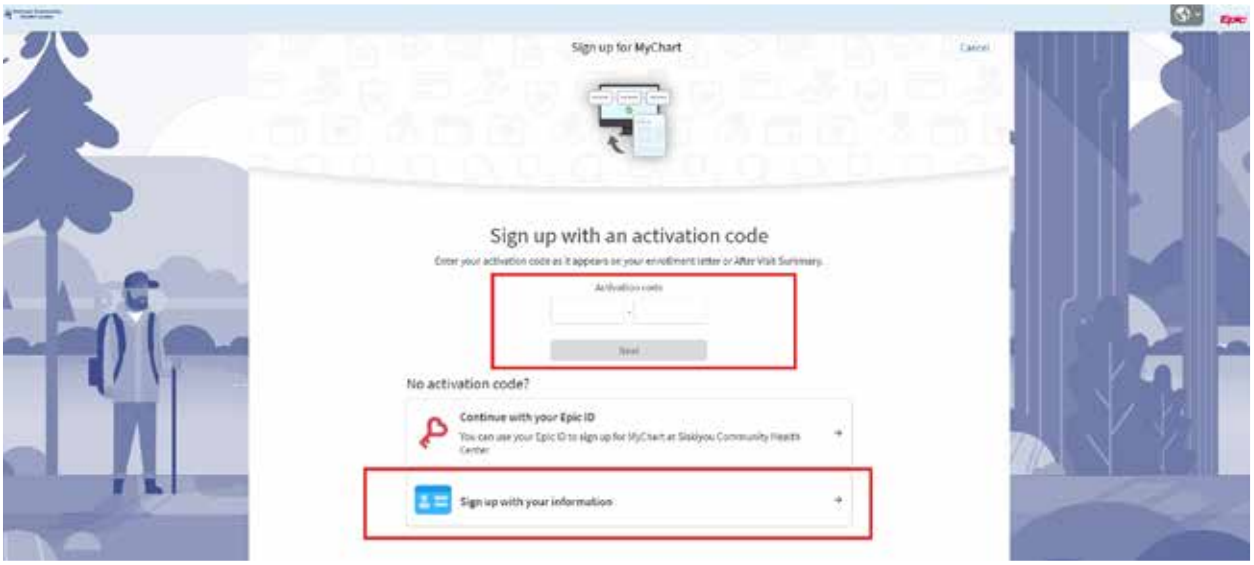

Signing Up

The self sign up button is located on your MyChart pre-log in screen under where the patient would log in. The mobile app has a similar looking button.

From there, if you have been provided an activation code, use it on this page to sign up. If you do not have an activation code, click on “Sign up with your information” at the bottom of the screen.

The activation code is the easier way. If you do not have an activiation code, call the Siskiyou at 541-472-4777.

You will then be taken to this screen where you will be able to attempt sign up without an activation code. When you attempt sign up this way, the information you input needs to match your record in EPIC exactly, or the sign up will not go through.
